Remuneration to Village Officers.

Amendment of Nos. 13 and 15 of the rules relating to the —.

No. 7024.

REVENUE DEPARTMENT.

Bombay Castle, 20th July 1909.

Letter from the Settlement Commissioner and Director of Land Records, No. 1419, dated 6th April 1909 :—

"I have the honour to advert to Government Resolution, Revenue Department, No. 9368, dated 16th September 1908, in which Government have issued orders regarding the discontinuance of the decennial revision of village officers' allowances and directed the Settlement Commissioner to submit amendments to the rules calculated to give effect to their orders.

"2. The principles, on which the allowances of village officers are calculated, had been under discussion with the Commissioners for some time previous to the issue of these orders, and had been considered in detail at the Commissioners' conference in August last. They have now been further examined at a conference, recently held, with the result that I am now in a position to lay before Government amendments to the rules which will give effect to the orders above referred to and will also to some extent improve the village officers' remuneration and at the same time effect a considerable reduction in the work of calculation.

"3. The rules by which the calculation of these emoluments is regulated are contained in Appendices G and K, Chapter XIX, Survey and Settlement Manual, Volume III. Rule 18 directs that pátils and kulkarnis shall receive remuneration calculated at a fixed percentage on 'gross revenue,' which is explained as the whole ordinary revenue leviable on lands for the last year before deducting remissions, including judi and grazing realisations, but excluding fees and fines on account of unpunctual payment of revenue.

"4. In Appendix K this definition of gross revenue is further elaborated and the exact items which are respectively to be included in and excluded from it for the purposes of calculation are mentioned individually.

"5. It is scarcely necessary to point out that this classification of the miscellaneous items of revenue leads to a great deal of unnecessary work. The calculation of the allowances at the introduction of each revision settlement is performed by a special establishment working under the Survey Daftardár in Poona, who have to obtain from various Mámlatdárs exact information as to all miscellaneous revenue, in order that they may be able to classify it correctly. The result is a great deal of correspondence and delay. At the decennial revisions which are undertaken by the Collectors' establishments, similar information has once again to be collected and the same troublesome process gone through once more.

"6. The orders in the Government Resolution above quoted, by discontinuing the decennial revision, will avoid a great deal of this waste of labour. But the occasion seems a convenient one for going further still for revising the principles on which the calculation is based, and as far as possible simplifying the procedure.

"7. Shortly speaking my proposal now is that rule 13 should run as follows :—

'The gross revenue of the village referred to in Rules 4 and 7 is the whole ordinary revenue leviable on land for the last year before deducting remissions and suspensions, but including judi and grazing realizations.'

Rule 15 shall run as follows :—

'The salaries of the officiators fixed by the Survey Department will be revised decennially in accordance with the fluctuations of the gross revenue of the village, but in order to avoid confusion and complication in the accounts the appropriations made from the land emoluments of each watan found by Rule 1 to provide the remuneration of the officiators will be changed at the decennial revision only when the increase in the emoluments payable exceeds 10 per cent., provided that the decennial revision ordered by this rule shall not be undertaken except when there is special reason or a probability of its resulting in a substantial increase in the existing emoluments of the officiators.'

Finally Appendix K should be deleted.

"8. In justification of this proposal I would point out that the classification of the items included in Appendix K seems to have no more authority than a Circular of the Commissioner, C. D., dated as long as 1870, which has never definitely received the sanction of Government. Moreover it is based on ideas, which, if they were sound then, can hardly be accepted as reasonable now. For instance there is no

86
23

possible reason nowadays to exclude the proceeds from lands given for building purposes, or sale proceeds of firewood or sale proceeds of occupancy rights and rights to trees. Item No. 6, 'amounts recovered as arrears of revenue,' was apparently excluded because presumably it was thought in 1877 that an efficient village officer ought not to allow arrears to occur. This idea of course is out of date. In fact the distinction between items included and excluded seems so fantastic that the time has certainly come to abolish it altogether.

"9. The net result of this proposal taken in conjunction with Government orders above mentioned will be a very large reduction of work. As each new settlement is introduced, the Survey Daftardár's office will calculate remuneration on the gross revenue of each village for the previous five years. This will be shown in the survey papers and no inquiry into the details with its resulting correspondence with a Mámlatdár will be necessary. The allowances so fixed will remain good for the whole period of 30 years, except in rare cases where the village revenue increases owing to the extension of irrigation or the taking up of lands for building sites. This new method of calculation will result in a very slight increase of expenditure, but it will be very small, and in any case the matter is one for congratulation rather than regret.

"10. I am not attaching the correspondence which has taken place between this office and the Commissioners on this subject, because it relates in the main to a different proposal altogether, viz., the omission of details of miscellaneous revenue from Táluka Forms 2, 19 and 27 to which the present proposal is only subsidiary. I am however authorised to say that it has their approval. I venture to hope that it will receive the sanction of Government."

RESOLUTION.—Under the orders contained in Government Resolutions No. 9084, dated 22nd September 1906, and No. 6918, dated 9th July 1908, the amount of remuneration due to village officers for grazing fees is deducted before the fees are sent to the táluka head-quarters. If the grazing realisations are included in the gross revenue, the village officers will get double remuneration for the collection of grazing fees. Under the rules prescribed in Government Resolution No. 7203, dated 14th October 1902, irrigation revenue is to be added to the average of land revenue receipts in fixing the remuneration of the village officers for the collection of irrigation revenue. In the amendment of rule No. 13 proposed in paragraph 7 of Mr. Curtis's letter for the words, "but including judi and grazing realisations" the words "including judi and irrigation revenue, but excluding grazing realisations" should be substituted. Subject to this modification the proposals made by the Settlement Commissioner and Director of Land Records in paragraph 7 of his letter, which are supported by the Commissioners of Divisions, are approved. He should be requested to submit the requisite correction slips to Appendices G and K to Chapter XIX of Volume III of the Survey and Settlement Manual.

ਪੰਜਾਬ ਦੇ ਸਰਕਾਰੀ ਸਕੂਲਾਂ ਵਿਚ ਪੜ੍ਹਾਈ ਦੀ ਹਾਲਤ

ਪੰਜਾਬ ਦੇ ਸਰਕਾਰੀ ਸਕੂਲਾਂ ਵਿਚ ਪੜ੍ਹਾਈ ਦੀ ਹਾਲਤ ਬਾਰੇ ਇਹ ਰਿਪੋਰਟ ਸਾਲ 1909-1910 ਦੇ ਦੌਰਾਨ ਤਿਆਰ ਕੀਤੀ ਗਈ ਸੀ। ਇਸ ਵਿਚ ਸਕੂਲਾਂ ਦੀ ਗਿਣਤੀ, ਵਿਦਿਆਰਥੀਆਂ ਦੀ ਹਾਜ਼ਰੀ, ਅਧਿਆਪਕਾਂ ਦੀ ਯੋਗਤਾ ਅਤੇ ਪੜ੍ਹਾਈ ਦੇ ਤਰੀਕਿਆਂ ਬਾਰੇ ਵਿਸਥਾਰ ਨਾਲ ਲਿਖਿਆ ਗਿਆ ਹੈ। ਰਿਪੋਰਟ ਦੇ ਅਨੁਸਾਰ ਉਸ ਸਮੇਂ ਪੰਜਾਬ ਵਿਚ ਕੁੱਲ ਸਕੂਲਾਂ ਦੀ ਗਿਣਤੀ ਲਗਭਗ ਤਿੰਨ ਹਜ਼ਾਰ ਸੀ ਅਤੇ ਇਨ੍ਹਾਂ ਵਿਚ ਪੜ੍ਹਣ ਵਾਲੇ ਵਿਦਿਆਰਥੀਆਂ ਦੀ ਗਿਣਤੀ ਲਗਭਗ ਇਕ ਲੱਖ ਸੀ। ਇਹ ਗਿਣਤੀ ਉਸ ਸਮੇਂ ਦੀ ਆਬਾਦੀ ਦੇ ਮੁਕਾਬਲੇ ਬਹੁਤ ਘੱਟ ਸੀ।

ਰਿਪੋਰਟ ਵਿਚ ਦੱਸਿਆ ਗਿਆ ਹੈ ਕਿ ਪੇਂਡੂ ਇਲਾਕਿਆਂ ਵਿਚ ਸਕੂਲਾਂ ਦੀ ਹਾਲਤ ਬਹੁਤ ਮਾੜੀ ਸੀ। ਬਹੁਤ ਸਾਰੇ ਸਕੂਲ ਕਿਰਾਏ ਦੇ ਕੱਚੇ ਮਕਾਨਾਂ ਵਿਚ ਚੱਲ ਰਹੇ ਸਨ ਜਿੱਥੇ ਨਾ ਤਾਂ ਪੀਣ ਵਾਲੇ ਪਾਣੀ ਦਾ ਪ੍ਰਬੰਧ ਸੀ ਅਤੇ ਨਾ ਹੀ ਬੈਠਣ ਲਈ ਢੁਕਵੀਂ ਥਾਂ। ਕਈ ਥਾਵਾਂ ਤੇ ਤਾਂ ਇਕ ਹੀ ਅਧਿਆਪਕ ਸਾਰੀਆਂ ਜਮਾਤਾਂ ਨੂੰ ਇਕੱਠੇ ਪੜ੍ਹਾਉਂਦਾ ਸੀ, ਜਿਸ ਕਾਰਨ ਪੜ੍ਹਾਈ ਦਾ ਪੱਧਰ ਬਹੁਤ ਨੀਵਾਂ ਰਹਿ ਜਾਂਦਾ ਸੀ।

ਅਧਿਆਪਕਾਂ ਦੀ ਤਨਖ਼ਾਹ ਵੀ ਬਹੁਤ ਘੱਟ ਸੀ। ਜ਼ਿਆਦਾਤਰ ਅਧਿਆਪਕਾਂ ਨੂੰ ਪੰਦਰਾਂ ਤੋਂ ਤੀਹ ਰੁਪਏ ਮਹੀਨਾ ਮਿਲਦੇ ਸਨ, ਜਦਕਿ ਉਨ੍ਹਾਂ ਤੋਂ ਉਮੀਦ ਕੀਤੀ ਜਾਂਦੀ ਸੀ ਕਿ ਉਹ ਪੜ੍ਹਾਉਣ ਦੇ ਨਾਲ-ਨਾਲ ਪਿੰਡ ਦੇ ਹੋਰ ਕੰਮਾਂ ਵਿਚ ਵੀ ਮਦਦ ਕਰਨ। ਰਿਪੋਰਟ ਵਿਚ ਸੁਝਾਅ ਦਿੱਤਾ ਗਿਆ ਸੀ ਕਿ ਅਧਿਆਪਕਾਂ ਦੀ ਤਨਖ਼ਾਹ ਵਧਾਈ ਜਾਵੇ ਅਤੇ ਉਨ੍ਹਾਂ ਲਈ ਸਿਖਲਾਈ ਦਾ ਪ੍ਰਬੰਧ ਕੀਤਾ ਜਾਵੇ।

ਵਿਦਿਆਰਥੀਆਂ ਦੀ ਹਾਜ਼ਰੀ ਬਾਰੇ ਵੀ ਰਿਪੋਰਟ ਵਿਚ ਚਿੰਤਾ ਪ੍ਰਗਟ ਕੀਤੀ ਗਈ ਹੈ। ਬਹੁਤ ਸਾਰੇ ਬੱਚੇ ਖੇਤੀਬਾੜੀ ਦੇ ਕੰਮਾਂ ਕਾਰਨ ਸਕੂਲ ਨਹੀਂ ਆ ਸਕਦੇ ਸਨ, ਖ਼ਾਸ ਕਰਕੇ ਫ਼ਸਲ ਬੀਜਣ ਅਤੇ ਵੱਢਣ ਦੇ ਸਮੇਂ। ਕੁੜੀਆਂ ਦੀ ਪੜ੍ਹਾਈ ਵੱਲ ਤਾਂ ਹੋਰ ਵੀ ਘੱਟ ਧਿਆਨ ਦਿੱਤਾ ਜਾਂਦਾ ਸੀ। ਰਿਪੋਰਟ ਅਨੁਸਾਰ ਪੰਜਾਬ ਵਿਚ ਕੁੜੀਆਂ ਦੀ ਪੜ੍ਹਾਈ ਦੀ ਦਰ ਬਹੁਤ ਹੀ ਨੀਵੀਂ ਸੀ।

ਰਿਪੋਰਟ ਵਿਚ ਕੁਝ ਚੰਗੇ ਪਹਿਲੂ ਵੀ ਦੱਸੇ ਗਏ ਹਨ। ਕਈ ਥਾਵਾਂ ਤੇ ਪਿੰਡ ਦੇ ਲੋਕਾਂ ਨੇ ਆਪਣੇ ਪੱਧਰ ਤੇ ਸਕੂਲ ਬਣਾਉਣ ਵਿਚ ਮਦਦ ਕੀਤੀ ਸੀ। ਕੁਝ ਅਧਿਆਪਕ ਬਹੁਤ ਮਿਹਨਤ ਨਾਲ ਪੜ੍ਹਾਉਂਦੇ ਸਨ ਅਤੇ ਵਿਦਿਆਰਥੀਆਂ ਵਿਚ ਪੜ੍ਹਾਈ ਪ੍ਰਤੀ ਰੁਚੀ ਪੈਦਾ ਕਰਦੇ ਸਨ। ਰਿਪੋਰਟ ਵਿਚ ਇਹ ਵੀ ਲਿਖਿਆ ਗਿਆ ਹੈ ਕਿ ਜੇ ਸਹੀ ਦਿਸ਼ਾ ਵਿਚ ਯਤਨ ਕੀਤੇ ਜਾਣ ਤਾਂ ਪੰਜਾਬ ਦੇ ਸਕੂਲਾਂ ਦੀ ਹਾਲਤ ਸੁਧਾਰੀ ਜਾ ਸਕਦੀ ਹੈ।

Dear Sir,

I am writing to you regarding the recent changes in the policy of our company. As you are aware, we have been facing some challenges in the market and we have had to make some difficult decisions in order to remain competitive.

One of the changes that we have made is to reduce the number of employees in our department. This was a very difficult decision for us to make, but we felt that it was necessary in order to keep the company afloat. We have tried to make the transition as smooth as possible for those who are affected.

We have also made some changes to the way we do business. We are now focusing more on our core products and services, and we are trying to streamline our operations in order to reduce costs. We believe that these changes will help us to become more efficient and profitable in the long run.

We understand that these changes may be difficult for some of our employees, but we are confident that they are the right decisions for the company. We appreciate your support during this time.

Sincerely,

Administration Report File.

From 1907 – 1921

General Department.
No. 1864

Bombay Castle,
20th March 1907.

Letter from the Compiler, General Administration Report for 1905-06, No. 2, dated the 16th January 1907:—

"I have the honour to report the completion of the General Administration Report for the year 1905-06. I regret to have to report that owing to reasons about to be stated it has been found impossible to publish the Report by December 15th, the date on which it was due. The first of these reasons is the lateness of the dates on which certain important materials specified in the attached schedule* were received. After calculating the time required in this office for summarising reports, the time required for printing and for getting proofs approved and finally the time required for the publishing of the General Administration Report in its final form, I have arrived at the conclusion already reached by most of my predecessors in this office, that unless the majority of materials are received by October 15th and the remainder before November 15th, it is impossible to get the work done up to date.

" * * * * *

"4. The inefficiency of the summaries submitted to this office in advance of full reports, especially in the case of those submitted by officers of the Political Department, has on many previous occasions been noted by my predecessors. I regret that I am obliged to reiterate this complaint. There is no need for fresh orders on this subject, but I would request that the attention of all officers submitting summaries in advance of their full reports be drawn to paragraph 4 of the letter from the Compiler, General Administration Report for 1887-88, printed with Government Resolution, General Department, No. 1368, dated 4th April 1889.

" * * * * *

"6. I have the honour to request sanction for the retention of the Head Clerk, Mr. Ganpatrao, up to January 16th, 1907.

"7. I have much pleasure in recording the satisfaction given to me by my Head Clerk, Mr. Ganpatrao Ramrao Kothare, and his Assistant, Mr. Samuel R. Adhav, in the performance of their duties. The work of the Press has throughout been satisfactory."

Government letter to Mr. L. Graham, I.C.S., Compiler, General Administration Report for 1905-06—

Thanking him for the manner in which he has performed his work; and remarking that the delay in the submission of the Report was due to causes beyond his control.

RESOLUTION.—The attention of Heads of Offices should be drawn to paragraph 1 of the letter and they should be requested to furnish the materials required for the General Administration Report with greater punctuality. Their attention should also be invited to paragraph 2 of Government Resolution No. 1368, dated the 4th April 1889, in respect of the preparation of summaries for the General Administration Report.

2. The retention of the services of the Head Clerk up to the 16th January 1907 is sanctioned, the charge being met from the grant for section work for the General Department.

Admn E

From

The Sub-Inspector of Police
Savanoor.

To,

The Diwan of Savanoor.

Sir

With reference to your No 877 dated 23rd Novr 1909 forwarding the Extract Para 2 from G. O No 6655 dated the 7th Oct: 1909 Pol: Dept. On the Administration Report of the Savanoor State for the year 1908-09, I respectfully beg to state that the remarks on the Police, in the above Extract are not accurate as can be seen from the following Table of proportions of acquittals Discharges & Convictions for the year 1908-09. (Kindly vide Appendix V of the Administration Report for the year 1908-1909.

1907-08 — 1908-09

Percentage of acquittals & discharges. 29·03 — 26·6

Percentage of convictions 70·9 — 73·3

Therefore it is evident that the percentage of convictions of the year 1908-09 is high and that of acquittals & discharges is lower than those of its preceding year.

I beg to add that in as much as 11 persons were convicted and 4 persons were discharged or acquitted out of 15 persons arrested in the year 1908-09; it can not be said that there is extreme high proportion of acquittals & discharges to convictions, as was remarked in the last portion of the extract of the G.R referred to above. Therefore the remarks seem to have been passed through oversight.

I further beg to State that I have duly noted the para 2

para 2 of your memo referred to above. The dacoity was committed a year & a quarter ago, at the time of the deceased Sub Inspector Mr Shankaram. Since my arrival here property worth ~~Rs~~ 48/- stolen in the dacoity has been traced and the accused Concerned a Kaikari of Bangitti Gurkal, has been convicted & sentenced. I have been still endeavouring my best in the matter.

I have the honour to be,
Sir,
Your most obdt Servant
E Rivett
Sub Inspector of Police
Hon. of 8/8/6.

Lr Hos 6/4
8/8/6.

The figures for 1908 are not compared with those for 1907-8 by Govt, as far as percentages of acquittals or discharges & convictions

are concerned. Govt apparently
expect a higher sentence of confinement
with reference to the expiry of the 9
days.

2) That Inspector Saravanan cannot
claim advancement in having
properly worked & tracked the
dacoity in the Dindigul home.
The whole credit is due to the
Kalapatty Police.

3) If the Investigating Officer Saravanan
can have the property stolen
at the dacoity & bring the dacoits
& the conviction will be considered
& brought to the notice of
Govt.

Forwarding copies of the Annual Report on public instruction in the Bombay Presidency for the year 1909-10.

General.

RESOLUTION.—There was a marked expansion in all branches of educational work during the year. Taking all institutions together the number of persons under instruction rose from 793,000* to 850,000, an increase of 57,000. Of this figure public institutions which are under Government inspection contributed 54,000. The percentage of all pupils under instruction to the general population now stands at 3·3, the highest figure yet recorded. Expenditure shows a corresponding increase, the total from all sources during the year amounting to Rs. 1,23,52,000,* which is no less than Rs. 5,49,000 in advance of the figure of the previous year and more than one-half of the increase was devoted to primary education. The increase in expenditure from Provincial Funds alone was Rs. 2,33,000,* and the percentage on the total of expenditure from this source was 46·5 in British districts and 39·7 if Native State territory be included.

University and Collegiate Education.

2. Important proposals for the improvement of the University curricula were under discussion throughout the year, but very little progress had been made before its close. From the figures given by the Director of Public Instruction it appears that 74 per cent. of the expenditure on affiliated Arts, Colleges and 98 per cent. of that on Professional Colleges is defrayed by Government. These figures indicate the extent to which, apart from general policy, Government is interested in higher education in this Presidency.

3. Examination results do not vary greatly from those recorded in the previous year, the conspicuous features being the large proportion of failures at the Matriculation, the comparatively small number of aspirants for degrees in science and the greater measure of success attained by the latter in comparison with candidates for degrees in arts.

4. The number of lady students at the Elphinstone College has now reached a considerable figure, and the need for special arrangements to deal with them has been forcibly explained by the Principal, who writes as follows:—

> "Moreover the close association of male and female involved in a mixed education is so totally opposed to the traditions of the East as well as so fraught with possibilities of evil that in my opinion the system is rather a barrier than an encouragement to female education. That the number of girl undergraduates is increasing is a sign that even this is not sufficient to check the demand for a University education for women. If the conditions of that education were in accord with Oriental ideas of women's functions, the number would go up by leaps and bounds. I am confident that the time is ripe for the creation in Bombay of a women's college, managed by a staff of Oxford or Cambridge women graduates. The 30 students of this College added to nearly the same number at the Wilson College and those admitted to St. Xavier's, are sufficient to start with. If so radical a step is not possible at present, then I suggest the following half-measure. A special lecturer and tutor of female students should be appointed to the Elphinstone College. She should be a British graduate and a member of the Indian Educational Service. Her subject should preferably be English, because it is very easy to get women well qualified to teach that subject. She would take complete charge of the girls' studies in that subject, and would in addition supervise their general reading, their games, and, most important of all, their manners and conduct."

* Figures to nearest 1,000.

Secondary Education.

5. There were 548 secondary institutions at work with 70,000 pupils, while the total expenditure was Rs. 26,37,000, all these figures showing a considerable advance over those recorded in the previous year.

6. The year was not marked by any open displays of insubordination or indiscipline on the part of the pupils, but it is regrettable that recent events should have shown that many pupils and *ex*-pupils of High Schools have in the past taken an active part in political agitation of the most debased kind. The Governor in Council is determined that scholars in Government and aided institutions shall abstain entirely from association in political movements of all kinds, and he trusts that in carrying out this policy he will have the full and active support of all classes. In this connection he views with satisfaction the endeavours made to interest parents and guardians in school life. Government propose to allot for each High School a sum sufficient to meet the expenses of a school meeting every year when parents and guardians will be invited to be present, and His Excellency in Council desires to invite their co-operation in furthering this movement by their presence on these occasions and by subscribing to poor boys' funds, games funds, prize funds, and the like.

7. The Department has important functions to perform in respect of secondary education, and His Excellency in Council has under active consideration measures designed to relieve the courses from the dominance of the Matriculation examination, to revise the curricula generally, to provide suitable text-books and to improve the prospects of the assistant masters. When these measures are in operation, some of the more patent defects of the existing system of secondary education will have been removed.

Primary Education.

8. The effect of the special grant for the spread of primary education which amounted to Rs. 1,14,000 in the year under review, is clearly evident in the figures relating to primary education. The number of public institutions rose by 840 to 11,790 and of pupils by 50,000.* The total expenditure on primary education reached the total of Rs. 51,43,000,* of which Government contributed Rs. 18,96,000. The increase in the Government share was Rs. 2,91,000.* There has therefore been a wholesome extension of the facilities for elementary instruction, and in some parts of the Presidency there are indications that for the present further extension cannot be advantageously made, and that it may be more desirable to concentrate available funds on improving the prospects of the masters. The sums allotted for the latter object during the three years 1908-09, 1909-10 and 1910-11 have been Rs. 48,846, Rs 2,42,000 and Rs. 2,86,251, and the Governor in Council will endeavour to provide the amount still required to give trained masters as nearly as possible a salary equivalent to the scale laid down in the Vernacular Masters' Code due regard being had to merit.

9. Experiments have been made in several directions with the view of adjusting school hours and curricula to the real needs of the agriculturists. In the varied conditions prevailing in the Presidency alterations suitable in one locality may be found a failure in another. So far experiments have not met with any marked success, but the Governor in Council trusts that the efforts of the Department will not be relaxed, and that as the quality of the teaching staff gradually improves, it may be possible to allow greater latitude to local officers in devising and carrying out suitable experiments.

Special Classes.

10. The Director of Public Instruction has discussed at considerable length the needs of the Muhammadans, and he shows that the Musulman community have no reason to complain that Government have not endeavoured to give full encouragement to them in promoting education. The figures demonstrate that the community is taking an increasing advantage of the facilities offered. At the same time the difficulties connected with the teaching of two vernaculars have not been completely solved, and it is a question whether it would not be for the educational advantage of the community frankly to discard Urdu in favour of the local vernacular as the compulsory language, leaving those who desired it, to add the accomplishment of a literary knowledge of Urdu.

*Figures to nearest 1,000.

Attention continues to be paid to the educational needs of other special communities. The attendance of aboriginal and hill tribes has risen steadily, while the wants of the depressed classes have met with increasing consideration from municipalities and local boards.

Special Instruction.

11. There was a perceptible rise in the number of pupils attending special schools. The new Technical School at Ahmedabad for which the public are indebted to the liberality of Sardar Sir Chinubhai Madhavlal, Kt., C.I.E., and his late father came into operation. Its course is closely connected with the great local cotton industry, and with its fine equipment and competent staff it promises to prove a highly successful institution.

General.

12. The year has been marked by general activity in all educational matters; the University courses have been reviewed and are now in course of revision; many improvements have been carried out in secondary institutions and further measures are in contemplation; and the facilities for primary instruction have been widely extended and the prospects of the teaching staff have been improved, while a properly equipped and useful technical institute has come into operation. The Governor in Council desires to congratulate the Honourable Mr. Sharp and his colleagues on these results.

POLITICAL DEPARTMENT.

Bombay Castle, 3rd September 1912.

Memorandum from the Commissioner, S. D., No. Pol.—227, dated the 5th August 1912—Forwarding a memorandum No. 4659, dated the 20th June 1912, from the Collector and Political Agent, Dhárwár, who submits with his remarks the Administration Report of the Sávanur State for the year 1911-12.

RESOLUTION.—The report has been suitably reviewed by the Political Agent and calls for few remarks. In spite of the partial failure of the harvest the suspensions and remissions of land revenue were not large and the balance for collection was easily recovered. The total income of the State was much less than in 1910-11 but if Abkari revenue be included, not much below the average of the last five years. The Governor in Council is glad to learn that the State after management for 20 years is now in a strong position financially and is pleased to commend the Political Agent and the Administrator, Mr. Rajerao, for this happy result. He looks forward with interest to the detailed report promised by the Political Agent and pending its receipt refrains from further comment on the administration report.

My friend,

I am directed to communicate to you the -- following remarks of Government on the report on the administration of the Savanur State during your ----- minority:-

" The Governor in Council is glad to note that the record of the administration of the ---- Savanur State during the minority of the ---- Navab is very satisfactory. The report shows that the expenditure will have to be reduced if the average annual income of the State --- does not exceed Rs 1,10,000. As, however, the State must by now be well supplied with ---- public works, a reduction of the grants under this head with the ommission of the item --- ' famine insurance' will enable the Navab to keep the expenditure within the revenue."

Yours sincerely,

ADMINISTRATION REPORT

OF THE

SAVANUR STATE

FOR THE YEAR

1912-1913.

No. 290 of 1913.

Sávanur, 6th June 1913.

From

LIEUTENANT NAWAB ABDUL MAJID KHAN,
DILAIR JUNG BAHADUR,
Nawáb of Sávanur;

To

THE POLITICAL AGENT,
Dhárwár.

My Friend,

I have the honour to present the annual Administration Report of this State for the year ending 31st March 1913 in the form prescribed by Government in their letter No. 2491, dated 9th May 1905, Political Department.

CHAPTER I.

General and Political.

2. The area of the State is 70 square miles. The population according to the census of 1911 is 17,909 as against 18,446 according to the census of 1901. The gross revenue of the State based on the average of past five years is Rs. 1,35,297-8-2.

3. No tribute of any kind is paid by the State either to the British Government or to any other Native State.

4. I married the eldest daughter of Major the Nawáb Mumtaj-Yar-Uddowla of His Highness the Nizam's Service in September last. The Government were pleased to instal me on the Gadi of my ancestors on the 12th November 1912. During the year His Excellency Lord Sydenham appointed me Honorary Aide-de-Camp on his staff and I was gazetted a Commissioned Officer of His Majesty's Indian Army. His Excellency Lord Willingdon, the Governor of Bombay, has just honoured me by appointing me on his staff as Honorary Aide-de-Camp.

5. My two married sisters continued to be in good health. The youngest may be married by the end of June next. She is in charge of Miss Granger, Lady Superintendent at Bangalore.

6. Both the Political Agent and the Assistant Political Agent visited Sávanur during the year. Appendix I will show the changes in the personnel of the chief State Officials.

CHAPTER II.

Administration of the Land.

7. There was no revenue settlement during the year and no alienations or boundary settlement took place.

The extent of assessed waste lands taken up for cultivation was 223 acres and 23 gunthas against 347 acres and 5 gunthas in the previous year.

The Diván did the annual Jamabandi as usual.

8. The following table shows tagái given and recovered during the year:—

Year.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1911-12	560 0 0	1,910 0 0	2,470 0 0
1912-13	.....	2,287 0 0	2,287 0 0

Nature of advance.	Outstanding balance for previous year.	Due for recovery during the year.	Total.	Recovered during the year.	Balance outstanding.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total ...	170 11 6	5,374 15 6	5,545 11 0	5,340 14 2	204 11 10

Rs. 2,500 were provided in the budget for tagái and Rs. 2,287 were utilized. The outstanding balance has been fully recovered.

9. The revenue demand for the year including suspensions was Rs. 68,807-5-8. The collections came to Rs. 68,514-13-8. The balance at the end of the year was Rs. 292-8-0.

The coercive measures adopted for the recovery of land revenue were 55 notices of demand and 5 cases of forfeiture and sale of landed property as against 64 and *nil* respectively of the last year.

Year.	A.	g.
1911-12 ...	38,709	26
1912-13 ...	38,923	19

10. The marginally noted figures will indicate the extent of the area under cultivation during the previous year and the year under report.

11. The Diván decided 84 heirship inquiry cases and 15 assistance cases during the year.

12. Ten Watan appointments were made during the year by the Diván.

CHAPTER III.

PROTECTION.

Legislation.

13. The laws and rules in force in the Sávanur State are the same as those in force in British Territory, as will be seen from Appendix II.

Military Force.

14. The State maintains no Military Force. Appendix III is, therefore, blank.

Police.

15. There were several changes in the constitution of the Police Force. The number of the Police Force was raised from 45 to 49. A post of an additional Jamadar was created. The post of a Drill Havaldar was found unnecessary and was, therefore, abolished. A Naik and two Constables have been sent to Dhárwár Police Head-quarters for being trained as Drill instructors.

The Sub-Inspector is the only officer whose services have been lent to the State by the British Government. One of the Jamadars, some of the Head Constables and most of the Constables are local men.

There are 20 muzzle loading rifles of the old pattern with which the force is armed. It is absolutely necessary in my opinion that the force should have some Martini Henry rifles for treasury and other guard duties. I have already approached Government on the subject.

16. The force is adequate. I have made special efforts to recruit a better class of men, literate and outsiders, as far as possible, but it was found difficult to induce such men for enlistment in the State service as there are prospects neither of rapid promotion nor of pension. But I am seriously thinking of starting a Provident Fund for the State Police to make the service more attractive.

17. It will be seen from Appendices V and VI that the number of cognizable cases decreased during the year by 7. There was a case of theft which still remains undetected. The percentage of convictions was 81·8 as against 76·4 and the percentage of recovery of property was 47·7 as against 71·6 of the last year. The decrease in the percentage of the recovery of property is due to the undetected theft case above referred to. If the percentage of the recovery of property is less satisfactory, the percentage of convictions was more satisfactory than in the last year.

18. The number of the police force increased during the year by 4. The cost of the force increased by Rs. 920-1-4.

The ratio of police to population and area during the year is one police for a population of 365 and 1·4 square miles respectively. Appendices IV, V and VI will show that there are more literate men in the force than last year and will furnish all the particulars as regards the working of the Police.

19. There are 23 Watandar Police Pátils and 2 stipendiary for 25 villages of the State. None of them exercised powers under the Village Police Act.

Criminal Justice.

20. There was a change in the number of Courts during the year. The Diván was District Magistrate. The Head Karkun, Second Class Magistrate and my Chitnis exercised the powers of a Third Class Magistrate. The District Magistrate hears appeals from the two lower Courts. The Political Agent and I together hear appeals from the Court of the District Magistrate.

21. The District Magistrate tried and disposed of 30 cases against 42 last year and the Third Class Magistrate 42 cases against 11 last year. The Second Class Magistrate tried 13 cases from December 1912. Seventy-five persons were brought to trial before the District Magistrate as against 87 last year; 15 were convicted and 60 discharged or acquitted; and none committed to the Sessions Court.

Nineteen persons were brought to trial before the Second Class Magistrate; 7 of them were convicted; and 12 discharged or acquitted.

Eighty-one persons were brought to trial before the Third Class Magistrate as against 16 last year; 44 of them were convicted; and 37 discharged or acquitted.

There were four appeals from the Court of the District Magistrate to the Court of the Sessions Judge and there was only one appeal from the Court of the Sub-Magistrate to that of the District Magistrate.

22. Eight persons were dealt with under Chapter VIII of the Criminal Procedure Code. Of these five were bound over for good behaviour and two were discharged and one remained pending trial at the end of the year.

Civil Justice.

23. There is only one Civil Court in the State, *viz.*, that of the Diván and Sub-Judge, First Class. The Political Agent and I together as District Judge hear appeals from the Sub-Judge.

24. The total number of suits on the file, including the previous balance, was 45, of which 15 were disposed of during the year. There were 30 decrees on the file for execution, of which 13 were disposed of. The total number of miscellaneous applications including the balance were 3, of which 2 were disposed of during the year. The average duration of suits and the execution of decrees during the year was 5 months and 19 days and 4 months and 26 days as against 8 months and 24 days and 5 months and 12 days respectively last year.

25. The following table shows the number and value of the landed property and money suits during the past and present years :—

Nature of suits.	1911-1912.		1912-1913.	
	No.	Value.	No.	Value.
		Rs. a. p.		Rs. a. p.
1. Landed property suits	3	336 0 0	1	4,065 0 0
2. Money bonds	28	4,745 1 8	21	4,785 1 9
3. Other suits	...	.....	1	235 0 0
Total ...	31	5,081 1 8	23	9,085 1 9

26. There was only one appeal from the Court of the Sub-Judge to that of the Political Agent and District Judge and it was disposed of during the year, the result being in the confirmation of the lower Court's decision. The average duration of an appeal during the year was 20 days as against 3 months and 10 days in the previous year.

There was one appeal to Government in the Political Department from the Court of the District Judge which remained pending decision at the end of the year.

27. The Dekkhan Agriculturists' Relief Act has been in force since 1910. The following table shows the names of Conciliators along with their work :—

Name of Conciliators.	Number of applications on the file.							Remarks.
	Opening balance.	Filed during the year.	Total.	Disposed of		Struck off the file on account of the absence of the applicants.	Balance at the end of the year.

Total last year ...	13	85	98	24	57	...	13	

28. The Diván exercised the powers under the Mámlatdárs' Courts Act and decided five cases during the year.

Extradition.

29. Processes of all kinds, Civil, Revenue and Criminal, were reciprocally served by the Sávanur State on the one hand and the adjoining British Districts and other Native States on the other.

The reciprocity in the matter of the recovery of land-revenue and other dues and of the extradition and mutual surrender of accused between this State and the British Districts have been sanctioned by Government and the question of the same between this State and some of the Native States of the Southern Mahratta Country is under contemplation.

Prison.

30. There is a jail at Sávanur consisting of five cells for the confinement of convicts and under-trial prisoners and of a separate cook-room. The building is in good condition.

During the year 15 convicts and 24 under-trial prisoners were admitted in the jail. The health of the prisoners was good. The treatment of prisoners is regulated by the same rules that are maintained in British jails. After my installation the Sub-Assistant Surgeon was appointed Superintendent of the jail and a separate kárkun was appointed to do the jailor's work under him. The Sub-Assistant Surgeon has taken keen interest in his new duties and worked to my satisfaction. There is a jail committee that holds quarterly meetings, the Superintendent being the Chairman. There was no casualty amongst the prisoners during the year. A small piece of garden-land has been attached to the jail and though at present there is nothing worth mentioning in the garden, in time it is hoped that it will be a source of income to the jail.

Registration.

31. Two hundred and sixteen documents of all kinds were received and registered during the year under report.

Their value was Rs. 64,522-3-0 and the fees realised were Rs. 368-8-0 The expenditure on account of the Department was Rs. 75-0-3, the net profits to the State being Rs. 293-7-9. The duties of the Sub-Registrar are performed by a kárkun of the Diván's Office, the Diván exercising the powers of the District Registrar.

Municipal Administration.

32. The only Municipality that exists at Sávanur consisted of 8 nominated and 4 elected Councillors. The Diván was the Vice-President and Chairman and the Assistant Political Agent was the President up to 12th November after which I have been the President. The Municipality held four quarterly meetings and four special meetings during the year. The average attendance at these meetings was respectively 9 and 8. The income of the Municipality was Rs. 6,016-14-2. An effort has been made this year to repay the debt due to the State as soon as possible by raising the amount of instalment so that the Municipality should be free from liability in less number of years. The buildings of the Municipality are in good condition. The Municipality is responsible for the sanitation of the town.

CHAPTER IV.

Production and Distribution.

Weather and Crops.

33. The total rainfall during the year was 34·47 inches as against 21·42 last year. The average fall for the last five years is 26·8. The average outturn of crops in annas is given below, 12 annas being taken to represent the normal outturn :—

	1911-12.	1912-13.
Rice	1	10
Jowári	8	8
Gram	2	4
Tur	4	4
Kulthi	4	6
Wheat	4	6
Cotton (exotic)	6	10
Do. (indigenous)	6	10

The season was very satisfactory.

Wages and Labour.

Prices and Food-grains.

34. The rates of wages during the year for men, women and children were annas 5, 4 and 3 respectively. Appendix XVIII gives the prices of staple food-grains.

Forest.

35. There is a forest at Mulkeri, a village of the State. The proceeds from the sale of grazing and bamboos in the forest were Rs. 299-9-8 and the cost of conservation was Rs. 154-6-0.

Trade and Manufacture.

36. There is no trade worth mentioning in the State limits. The only sort of industry that is carried on consists in weaving coarse cloths, blankets, Sáris and Khans, the chief exports being cotton and Pan leaves.

Public Works.

37. The total expenditure on public works was Rs. 9,589-1-11 as against Rs. 12,642 last year. The details are given in Appendix XIX. The staff has been considerably reduced and is now practically the same as that of a táluka of the British district. It is difficult for a layman like me to promptly check the estimates, etc., but, whenever possible, I have consulted the Executive Engineer of Dhárwár whose advice and help were most useful to me, and I take this opportunity of recording my thanks for his ungrudging assistance.

Post and Telegraph Office.

38. There is now a combined post and telegraph office at Sávanur. The need of a telegraph office was long felt by the public and it has been most useful to us all. The telegraph office did good business during the year.

Mint.

39. There is no mint at Sávanur.

General condition of the State and the people.

40. The general condition of the State was very satisfactory. Its financial position is sound. The State has modest saving which has been invested in :—

(*a*) Promissory Notes of the face value of Rs. 1,70,100 including Rs. 78,000 as Famine Insurance Fund.

(*b*) Loan to Khanjadas, etc., on the security of their cash allowance and landed property, Rs. 32,804-2-2.

(*c*) Takávi advances amounting to Rs. 8,703-7-5, and

(*d*) Loan of Rs. 75,000 to Sardar Mahabub Alli Khan for the erection of a Cotton Press at Sávanur.

The season was favourable; the rainfall was sufficient; the condition of the people, who are mostly agricultural, was good; the people in the villages are peaceful and law-abiding; in Sávanur itself, except for a handful of men, the people are quiet; the public health was satisfactory; the water-supply for people and cattle was sufficient; labour was dear; there were 656 births and 479 deaths as against 742 and 1,315 respectively last year; the birth and death rates per mille were 36 and 27 as against 42 and 73 last year; the condition of the agricultural stock was on the whole satisfactory; the number of cattle increased as will be seen from Appendix XX.

A pressing factory is being erected by Sardar Mahabub Alli Khan who has been given a loan of Rs. 75,000 by the State for the erection of the press.

With great care and after proper enquiries into the financial position of the said Sardar, the loan was given on the security of all his immoveable property situated in Hubli and Sávanur. This press is bound to attract more cotton to the Sávanur market and increase the importance of the town. I have great hopes that this business will pay and add materially to the prosperity of Sávanur. At all events, it is a gain and a great convenience to the rayats who not only save the trouble of going to and returning from Hubli which takes practically a week, but save the cart hire to Hubli, which is not small considering the great quantity of cotton carried to Hubli by the people of the Sávanur State and the adjoining British villages. It was hoped that the press would work this year, but during the cotton picking season the wages were so high and the demand for labour so great, that for the want of coolies the work could not be completed.

There was neither emigration nor immigration during the year.

The Ábkári revenue of the State continued to be managed by the British Government. There were 14 Ábkári shops as in the last year. The consumption of toddy and liquor was normal.

CHAPTER V.

Revenue and Finance.

41. Appendix XXII-B will show that the gross revenue of the State for the year is Rs. 2,05,767-12-4 as against Rs. 1,04,558-12-0 and the expenditure was Rs. 1,60,202-2-1 as against Rs. 1,15,969-9-2.

42. The more important increases and decreases of receipts and expenditure are explained below :—

Receipts.

I.—*Land Revenue*—The increase is due to the collection of suspended land revenue.

Ábkári—The increase is due to the recovery of revenue of past two years during the year.

The increase in the income is chiefly due to the sale of Promissory notes worth Rs. 69,286-10-3.

Expenditure.

II.—*Personal expenses of the Nawáb*—The increase is chiefly due to the adjustment of vouchers of the past year.

43. There were arrears amounting to Rs. 7,886-4-9 for recovery from the Khanjadas, etc., on account of loans, of which Rs. 7,253-5-11 were recovered during the year. Very little now remains to be recovered in this item.

44. The State is not in debt.

CHAPTER VI.

Vital Statistics.

45. There is only one dispensary at Sávanur. Appendix XXIII shows the work done by it and the medical aid afforded to the patients. The number of out-door and in-door patients treated in the dispensary was 8,501 and 31 as against 7,822 and 46, the daily average being 108·5 as against 82·3 last year. Out of 8,532 patients treated in the dispensary, 2,007 came from the British adjoining villages as against 1,786 last year. The flooring of the surgical and dispensing hall is being renewed as per suggestion of the Civil Surgeon and the whole building is in good condition. 611 persons were inoculated during the year as against 191 last year. Inoculation is not as popular as it ought to be amongst the public.

46. No special sanitary works were undertaken in the State villages.

47. The following table shows the progress made in vaccination :—

Year.	Number of persons vaccinated.	Successful.	Unsuccessful.	Unknown.	Remarks.
1911-1912	761	663	43	55	
1912-1913	758	647	45	66	

The late vaccinator, Khuddas Khán, was departmentally dismissed for having employed his nephew (a boy of 16) to vaccinate in the villages in his place. Through the Deputy Sanitary Commissioner I was able to get a qualified candidate in his place who did fairly good work.

48. Both births and deaths decreased during the year as will be seen from Appendix XXIV. The decrease in the number of deaths was chiefly due to the non-appearance of plague. There is a register of vital statistics maintained both in Sávanur and the State villages.

49. No special expenditure was incurred on account of sanitation and registration of births and deaths, as the duties of the latter are done by the village officers as part of their daily duties.

50. The expenditure on vaccination and medical aid was Rs. 365-6-11 and Rs. 2,295-14-8 as against Rs. 446 and Rs. 2,788 respectively last year.

51. Cholera prevailed in five of the State villages including Sávanur itself, to suppress which prompt measures were taken. 42 and 57 deaths occurred from cholera in Sávanur and State villages respectively.

CHAPTER VII.

Education.

52. There are four schools in Sávanur town as against five last year, namely :—

1 First Grade Anglo Vernacular school.
1 Kánarese and Urdu Boys' school.
1 Urdu Girls' school.
1 Hindu Girls' school.

4

As in the case with the Urdu Girls' school, there was a separate school for Mahomedan boys which was lately amalgamated with the Kánarese school for the following reasons :—

(*a*) The standard of teaching in the two schools was different. The V standard of the Urdu school corresponded to the IV standard of the Kánarese school, *i. e.*, a Hindu boy joined the English school after passing his IV standard and the Mahomedan boy after V standard. This meant the loss of one year in the case of the Mahomedan boy.

(*b*) The difference in the standards was due to the following reasons :—

A Mahomedan boy began Urdu from the I standard and Kánarese from his II standard, whereas by the amalgamated system he starts Kánarese from the I standard and Urdu from his II standard, *i. e.*, *vice versa* of the former system.

(*c*) The only object in teaching Urdu is that it is the language of the Mahomedans, but in a place like the Dhárwár District it is hardly useful. It is from a sentimental point of view that the Mahomedans learn Urdu. However, even if they begin Urdu in the II standard, they have four years to learn it in the upper standards, whether they continue in the Kánarese school or join the English school. At the same time they do not have the disadvantage of losing a year in their first five years of school life.

The staff of the Urdu school has been retained and is working together with that of the Kánarese school.

The number of schools in the villages was 14 as last year. There is also a class for low caste boys at Sávanur. The total number of boys who attended the school was 1,314 as against 1,230 last year; and the average daily attendence was 941 as against 836 last year.

There are many Mahomedan mosques in the State, the funds of which were not usefully utilized. The funds are controlled by a Panch. I called a meeting of this Panch and the leading Mahomedans and decided that the money hitherto spent on the feeding of "Mushyfars, etc.," should be stopped and the money be utilized in giving scholarships to poor Mahomedan boys. The funds thus set apart for the purpose are about Rs. 450. Annually about Rs. 500 used to be spent by the State on Fatya ceremonies and I have arranged that only Rs. 100 should be spent on these ceremonies, just to keep up the sentimental part of it and Rs. 400 should be spent in the scholarship for Mahomedan boys. Thus we have Rs. 850 to spend on the Mahomedan boys annually and though it is not a large sum, it is a good beginning and great encouragement to them.

The State is giving a special scholarship to one of the relations studying at the Elphinstone College.

The Schools were examined by the Deputy and Assistant Deputy Educational Inspectors of the Dhárwár District. They report that the result of the schools is satisfactory; a trained master is necessary for the Urdu school; the Dhed class is doing well; the school buildings are spacious except in two or three villages. The Inspection reports of some of the schools have not been received as yet.

It is proposed to send one or two teachers for being trained in the college at Dhárwár. A new school has lately been built at Basankop at a cost of about Rs. 1,530 and other schools will be made spacious in due course of time.

The cost incurred by the State on account of Education, both primary and secondary, during the year was Rs. 10,289-4-0 as against Rs. 9,809-1-7 last year, irrespective of the fee income. The increase is due to the annual increments given.

The income of fees was Rs. 2,028-3-6.

Local arrangements have been made for the duties of the Deputy Educational Inspector in the State since the time of my installation. As a few schools had not been inspected at the time of my installation the British Deputy Educational Inspector finished the inspection at my special request.

The standards up to which education is imparted in the several schools are given in Appendix XXV. The State is doing its best to improve educational matters.

CHAPTER VIII.

Miscellaneous.

53. There are no printing presses or newspapers in the State limits. The establishment of a library is under contemplation and is receiving my best consideration. It is hoped that by the end of the next year it may be opened.

54. No wild animals and venomous snakes were destroyed and no expenditure was incurred on that account during the year.

55. The State records are up to date and in good order.

56. There were five Sardars excluding myself, one of them was a First Class Sardar (who died on 15th May 1913) and the others Second Class. I regret to say that there is great friction amongst them and there is no such thing as harmony between these gentlemen. This is greatly due to their being uneducated and having no occupation or aim in life. Unfortunately the state of

most of my distant relations is the same; they get a certain amount of cash allowance from the State (the allowance is in some cases hardly sufficient to maintain their family); they do not care to educate themselves or their children and having nothing to do whatever, I am afraid, sometimes unnecessarily interfere in official matters, which is not pleasant. I am trying to get them together and give them something to do if possible. Sardár Abdul Jabar Khán has lately been appointed Honorary Secretary of the Municipality of Sávanur, and I hope he will do well. There has been only one serious case of misconduct amongst the Biradars which has already been reported in my letter No. 15 of 15th January 1913.

57. The anniversary of Their Majesties' Darbár at Delhi of December 1911 was celebrated amongst great rejoicings. The day was observed as a holiday; the town was illuminated; the schools were closed in honour of the occasion; prizes and sweetmeats were distributed to school-children. It is to me a matter of a very great pleasure to bring to the notice of Government the sincere feelings of loyalty of the Sávanur people.

58. There is nothing of a very striking feature in this year's report, but it has been one of steady progress for Sávanur and its people. Changes have been introduced in Judicial, Police and Educational matters and next year's report will show how far they have been successful.

59. Mr. Betgeri, my Chitnis, is the only new man on the staff. His knowledge of the Assistant Political Agent's office was useful to me and he has worked to my satisfaction. The rest of the staff continued to be the same as last year. Most of them have worked well; but I should like to see them take more interest in the welfare of the State and the people.

60. I cannot conclude this report without tendering my sincere thanks to you for your kind help and advice which has guided me in the first year of my administration. It alleviates me a good deal in administrating the State by having your warm support and kind advice which you have always extended to me. I feel that we can do but little without the help of Political Officers like you and it is a great encouragement to me to know that I have not only a sympathetic Political Agent but a real friend of the State, my family and myself.

I have the honour to be,
Sir,
Your sincere friend,
ABDUL MAJID KHAN, Lt.,
Nawáb.

No. 4191 of 1913.

Dhárwár, 18th June 1913.

Forwarded with compliments to the Commissioner, Southern Division.

2. The Nawáb's first administration report is a businesslike document and deals briefly but adequately with all branches of the administration. The year was a busy one for the Nawáb and included several interesting events which are duly recorded. The personal marks of recognition received by him must be a source of gratification to those associated with his minority and of encouragement to him for the future. The birth of a son and heir at the end of May is an auspicious event that may be noted. The marriage of his youngest sister has been unavoidably postponed from time to time, but will, it is hoped, take place within the next month or so.

3. The season was a prosperous one and the figures of land-revenue collections are satisfactory. The area under cultivation increased by 200 acres.

4. The condition of the Police was satisfactory. The arrangements made for training in drill are sensible and economical and the idea of starting a Provident Fund is good. If it materialises, the results will be interesting. The figures showing the results of working are satisfactory and the amount of crime was very small.

5. The arrangements for administration of Criminal justice have worked well. Civil justice received proper attention and the reduction in the duration of suits and executions is commendable.

6. The Jail arrangements reported are judicious and show that the Nawáb is giving his personal attention to this important matter. His taking up the duties of President of the Municipality and his personal control of public works afford similar indications.

7. The details given of the general condition of the State and the people are interesting and show a satisfactory state of affairs. The financial position is sound. The loan of Rs. 75,000 to a Khanjada for the erection of a cotton press shows considerable enterprise. The Political Agent did not feel justified in advancing the amount during the minority. But the Nawáb sought the advice of those competent to give it before making the loan which is well secured. If the enterprise succeeds, it will undoubtedly be of great value to the State and ryots of surrounding British villages. As hinted in the report old factions and jealousies are not extinct. But when the Nawáb has a house in which he can reside in health and comfort and is consequently in a position to spend a substantial portion of his time among his own people, matters are certain to improve.

8. Revenue and Finance.—The revenue of the year was swollen by recoveries of suspended land-revenue, recovery of two years of A'bkári revenue, and sale proceeds of promissory notes. On the expenditure side, the increases are mostly due to inevitable expenditure in connection with the Nawáb's installation and marriage and the settling of bills for the previous year in connection with the Delhi Durbár. In other directions expenditure was reasonable and suited to the necessities of the State.

9. Education has received much personal attention. The amalgamation of the Kánarese and Urdu Schools is a sensible and progressive step and affords an example which Mahomedans elsewhere would do well to follow. The same remark applies to the arrangements which the Nawáb has been able to make, with the approval of the local Mahomedan community for the use of mosque and State funds, hitherto wasted on feeding and ceremonies, in advancing the cause of education.

10. Altogether the Nawáb is in a position to give a satisfactory account of his first year of administration. He has set to work in earnest and given a full measure of personal attention to affairs of State. The somewhat sordid quarrels of the Biradars are a matter for regret, but the most likely remedy has been indicated above. The Nawáb has maintained the fullest and most intimate communication with the Political Agent and sought his advice in all matters of delicacy or difficulty.

E. MACONOCHIE,
Political Agent, Sávanur.

Note showing the discrepancies in the Administration report of the Savanur State for the year 1916-17.

---

1. Appendix VIII :--- The No. of offences reported during 1915-16 is given as 71, whereas it should be 66, vide appendix VIII in the printed report of 1915-16. The discrepancy should - please be explained - The total of column 10 is not given. It comes to 100 but it should be 116 - vide last years report.

2. AppendixXIX :- The total expenditure on P.W.D. works is - Rs. 28314-15-7 whereas it is given as Rs. 28655-6-5 in para. 36 of the report. The discrepancy should please be explained.

3. (a) appendix XXII-B :--- The total with the net receipts -- including opening balance is Rs. 41o237-7-4, whereas, the total with the net closing balance is Rs. 41oo95-7-4;

(b) ~~Again,~~ the closing balance should be Rs. 3oo5o4-1o-11 -

i. e.	124531-11-4	receipts.
-	1o9732-12-5	expenditure.
	14798-14-11	
+	2857o5-12-o	opening balance.
	3oo5o4-1o-11	closing balance.

but it is given as Rs. 3oo362-1o-11 .

In both the cases (a) and (b) a difference of Rs. 142 is arrived at. The discrepancy should please be explained.

Explanatory note on the discrepancies found in the Admn. Report of the Savanur State for the year 1916-1917.

(1) Appendix VIII given in the current administration report is in-accurate. A fresh appendix is here-with enclosed. The No of offences-66- in 1915-16 is correct. The Total of Col. 10 is now given.

(2). ~~The~~ Expenditure on P.W.D. shown in appendix XIX - The figure 28314-15-7 does not include the annual contribution (Rs 296-1-6) ~~not to be paid~~ due by the J.C.B. of Karajgi & Bankapur for the repairs done to the S. M. Dy Sta road during the year Whereas the figure Rs 28655-6-5 given in para 36 of the report includes this contribution & another item of Rs 44-5-4 on acct of repairs to a masjid executed by the P.W.D, but paid from Devasthan funds which are separate from P.W.D. accounts.

The Date has yet to receive, it may be noted, the shares of repairs to the road due by the ~~J.C.B.~~ Bankg & L Boards.

(3) The figures given as closing balance are correct as per Nazdi accounts.

During the year 1915-16 one item of Rs 142/- was, through oversight, credited to the head "miscellaneous" instead of to "advances recoverable". This discrepancy was noticed & rectified after the submission of that year's admn report. The balance of advances to be received during the next year became, therefore, short by Rs 142. This fact accounts for the apparent difference.

The closing balance for 1915-16 was taken as the opening balance of 1916-17 without giving, below the Appendix, as should have been done, a note of the fact that Rs 142 were deducted from the item advances recoverable, subsequent to the submission of the last Admn report.

Explanatory note on the discrepancies found in the admn report of the Sarain State for the year 1916-1917.

1. ~~The~~ Appendix VIII given in the current administration report is ~~a mistake~~ inaccurate. A fresh ~~correct~~ accounts appendix is herewith enclosed. The no of offices - 66 - in 1915-16 is correct. The total of Col 10 is now given.

2. ~~The total~~ expenditure on P.W. shown in App XIX - ~~Rs~~ 28,374-15-7 the time of submission of accounts does not include the contribution (4296-1-6) ~~debited to the head~~ ~~paper accounts~~ under Rs 1K & B in the Repairs to Rds yet to be paid by the T.L. Bs of ~~the~~ S.H. Ry Station even during 1916-17 whereas the figure Rs 28655-6-5 given in para 36 of the report includes ~~this amount~~ the contribution adopted by another item 1446-5-4 This ~~amount~~ spent by the State on the repairs in the ~~the~~ repairs ~~to~~ charged ~~but~~ which ~~was~~ paid from on account of ~~State~~ on the repairs ~~and~~ received ~~in advance~~. Items then ~~and~~ which are ~~to~~ payable from P.W. Deposits The State has ~~to~~ received the shares of repairs to the road due by the two T.L.Bs ~~of Rasipur & Bamkhi~~. The cost of repair of the road ~~has not been paid~~ is yet to be received.

3. The figures given as closing balance are correct as per Valadi accounts.

~~Rs 442 received last year~~ from were by oversight

1915-16.

During the last year one item of Rs 142/- was through oversight, credited to "miscellaneous" instead of to "advances recoverable". The mistake was noticed after the submission of the Annual report discrepancy being rectified in the current

The balance of advances to be recovered during the next year became Rs 142 short by this fact accounts for the apparent difference.

The opening balance for 1915-16 is taken as the closing balance of 1914-15 was Rs 142 short as the

there should have been a short instead of the opening balance of advances recoverable on the

Rs 142. without making a note of the fact that Rs 142 was omitted to be credited to Advances recoverable as shown in the Appendix. At the end of the year

Note that effect should have been made below

Captain Nawab Abdul Majidkhan ,

Dilair Jung Bahadur ,

Nawab of Savanur .

To ,

A.E.L Emanuel Esquire, M.A., I.C.S.,

Political Agent ,

Dharwar .

My friend ,

I have the honour to present herewith the annual Administrah report of the Savanur State for the year 1918-19 with a request to forwa the same to Government for their information .

2 . The report deals very fully with all details of the Administration of the State . The year has been one of great anxiety . Prices were -- abnormally high , rainfall was insufficient and great difficulty was --- experienced in obtaining (during the earlier part of the year) foodstuffs All this had a very depressing effect on the poor people and caused grea anxiety to maintain order in the State limits .

The State with its limited resources did its best to relieve the distress of the poor . When it was found that the price of Jowari was rising a certain amount of Jowari was purchased by the State & sold at cost --- price , which was much cheaper than the price then ruling in the market . Of course it was not possible to do this on a large scale . The Public - Works Department Programme afforded sufficient labour for the labouring - classes. When I was in Bombay I saw the Controller and explained our ---- difficulties to him in getting foodstuffs and every endevour was made to meet the Local requirements .

Suspensions and remissions were granted on a liberal scale .

3. Health of the town was bad. Influenza and Plague carried away many liv The Sub-Assistant Surgeon was ordered to go round every locality in Savan town , daily, and attend to the sick during influenza time . I hope soon to be able to get an additional Sub-Assistant Surgeon with the intention of starting a travelling dispensary and make him tour in all the State villag

4. The Police under the guidance of Mr. R.S?Kulkarni, the present Diwan hav done a good year's work .

scarcity and famine there was no serious crime and the results of the working of the Police were good . In connection with the Police Department, may I draw your kind attention to para14 of the Administration Report . The Police Force of several of the S.M.Chiefs is armed with Martini Henry Rifles and I shall be much obliged if you will again move the Government to reconsider the case . I hope that Government will be kind enough to grant this concession to Savanur, which is under the management of an Officer who has the honour of holding a Commission in their Army .

5. Newsof the declaration of Armistice and the signing of the Peace were received with great joy . Thanksgiving services were held by every community . Public meetings to express Loyalty to His Majesty's Throne were called and largely attended. This small State did all it could to help recruiting and in the collection of War Loans.. As already mentioned by the Diwan the State subscribed to several War Funds..

6. I feel sure you will pardon me for taking this opportunity of welcoming you back as Poltical Agent of this State . Your kindness towards me and the interest you take in Savanur affairs are a great encouragement and I feel that in having you as our Political Agent we have a sympathetic Political Officer and a real friend .

7. For a long time the Government have been pleased to allow this State to have the honour of having two First Class Sardars viz. the Nawab and a relation of the family. Sardar Shah Zad Begum who was a first Class Sardar died in 1912, and since then I have not recommended any other relation's name to replace her . I shall be grateful if you would very kindly support my request to raise Sardar Mahabub Alli Khan to a First Class Sardar and place his name before Government for their kind consideration . He is now a Second Class Sardar of the Deccan and I am certain that you will agree with me that he is thoroughly deserving of the honour . His services to State have been invaluable . He was of great help to me in Recruiting affairs and in the Collections of War Loans for which Government has been pleased to give him a certificate of merit . As you know his activities are not confined only to Savanur .In Hubli he is much respected by the Mahomedans. I hope Government will be kind enough to grant my request which I will always consider as a personal favour .

8/ In conclusion I can not but express my feelings of deep gratitude to His Excellency Sir George Lloyd G.C.S.I.,D.S.O., Governor of Bombay for the great honour His Excellency has been pleased to do me in appointing me

as his Honorary A.D.C. on the personal Staff .

I left the Bombay Body Guard in March last . The great kindness of Their Excellencies. Lord and Lady Willingdon and their gracious appreciation of my humble services will never be forgotten by my family or myself

I have the honour to be

my friend

Yours sincerely

O/C

Under Administration Report of Savanur State 1918-19 sent with the Nawab's No. 800 of September 26, 1919.

No. 165

Office of the Political Agent, Dharwar.

Dharwar, 30th September 1919.

~~Submitted to the Commissioner, S. D.~~

2. The year has been marred only by influenza (causing a death rate of .83 per mille) and drought (19 inches of rain against an average of 26), and, as the Divan writes - " there is peace in the State, there being no crimes and no public sensation of any kind. " The Nawab Saheb has exercised a wide and watchful supervision over the State affairs. His measure , at the beginning of food scarcity, of buying up - stocks of jowari to sell at cost price was a piece of sound economic policy. In larger areas, where such real control of the stock is almost impossible, the price control which has to be attempted without stock control is somewhat of a farce.

3. The Nawab Saheb's plea for rifles for his Police force seems a very reasonable one. The muzzle loaders which are the only fire-arm of the present force, except 6 Martini Henrys, would be little use against say a large and determined dacoity

4. ~~Nawabkaxparx~~ (Nawab Saheb's para. 7) The Political Agent hopes to have grounds for recommending the Nawab Saheb's ~~brother~~ Cousin Sardar Mahabubalikhan for a first class Sardarship - when he has had a rather larger acquaintance with him.

5. ~~The tale of 35 military recruits~~ supplied by the State is a good one for the Carnatic, and no doubt the Nawab Saheb's own example had an excellent effect, for he was one of the first Ruling Chiefs to go on active service, at a time when - Indian loyalty might have been doubtful, and he distinguished himself in Mesopotamia. He lately offered his assistance for the Afghan campaign.

6. The project of a Travelling Dispensary (Nawab Saheb's para.

para. 3) if realized, should make a useful supplement to the Savanur Dispensary.
